

# Educational Program Functional Area Goals

1. To expand and improve the variety, quality, and delivery of instructional programs and learning resources to meet the identified needs of students, citizens, and employers in the College service area.
2. To provide comprehensive academic and career/technical programs and academic support services at each campus that meet identified needs of students, citizens and employers served by the College.
3. To provide developmental education that successfully supports and assists students in acquiring basic learning skills and overcoming identified academic deficiencies.
