

# Grade Calculations

No rounding of test scores is done, eg. 78.6. Only the final course grade is rounded, eg. 0.5 or higher is raised to the next whole number.

WCC nursing programs will carry all grade computations within a course (exams, quizzes, comprehensive tests, outside activity grades, etc.) to the hundredths place with no rounding applied to intermediate steps.

Final course averages will be rounded to the nearest whole number and the following grading scale applied:

A = 90-100

B = 80-89

C = 75-79

D = 60-74

F = 59 and below
