

Health Services

Wallace Community College does not provide a formal health services program; however, health services and educational information regarding health and safety issues are provided to students in a variety of ways. Health-related educational issues are handled mainly by information sharing. An overview of health services and safety information is provided to students during the College's new student orientation program (SOAR). The Advising Centers on both campuses maintain health information brochures that may be obtained by students. These offices also maintain a comprehensive list of referrals for student use. Additionally, the College staff encourages students to participate in health-related activities scheduled at any College location and/or surrounding community. These activities include blood drives and health-related workshops.
