

Quality Points

The College uses a four-point grading system to evaluate student scholastic standing. The following quality points are assigned:

Grade Quality Points per Hour

A	4
B	3
C	2
D	1
F	0
I	0
IP	0
AU	0
S	0
U	0
W	0
WF	0

Non-credit courses (developmental and Corporate and Continuing Education) do not count in calculating the grade point average.

Students' scholastic standings or grade point averages are obtained by dividing their total number of quality points by the total number of semester hours pursued. Any course for which students have previously registered may be repeated; however, a course may be counted only once toward fulfillment of credit hours for graduation.
