

NUR 199: LPN to Associate Degree Nursing (RN) Transition

This course focuses on the application of nursing science to assist the Licensed Practical Nurse (LPN) transitioning into the role of the associate degree nurse (ADN). Emphasis in this course is placed on evidenced based clinical decision making and nursing care provided in a family and community context for a variety of health alterations across the lifespan. In a safe, legal, and ethical manner, students will use the nursing process to manage and provide collaborative care to clients who are experiencing selected alterations. Upon successful completion of the course students will be able to articulate into the ADN program.

Credits: 10

Lab Hours: 3

Lecture Hours: 6

Clinical Hours: 9
